EDUCATION

European Bachelor's in IT and Networks (Computer Science)

Institut Supérieur de Génie Informatique

- Oct 2024 — Present

SKILLS

Technical Skills:

- Node.js, Express.js, MongoDB, TypeScript, JS, React.js, Tailwind CSS, Material UI, HTML, CSS, Git, GitHub, C, VB.Net, php.

Soft Skills:

- Communication, Teamwork, Fast Learner, Adaptability, Problem Solving

PROJECTS

HandMade Marketplace (React E-commerce Project)

- Built with React, Vite, Tailwind CSS, and React Router DOM
- Implemented product browsing, filtering, search, and cart management using Context API
- Designed dark-themed glassmorphic UI with smooth animations and mobile-first design
- Added local storage persistence for cart data and theme preferences
- Live Demo: <https://hande-made.vercel.app/> | GitHub: <https://github.com/Ibrahim-Ahidar/HandeMade>

Weather App (React Project)

- Built a responsive weather web app using React, Material-UI (MUI), Vite, Axios, and i18next.
- Integrated Axios for structured API communication and error-handled data fetching.
- Added i18next for multi-language support and seamless localization.
- Used the Geolocation API to automatically detect the user's location and fetch local weather data.
- Deployed securely on Vercel with environment variables for production hosting.
- Live Demo: <https://github.com/Ibrahim-Ahidar/Weather-App> | GitHub: <https://github.com/Ibrahim-Ahidar/Weather-App>

Auth App (React & Express & MongoDB Project)

- Used MongoDB with Mongoose for the database.
- Used bcrypt for password hashing and JWT for auth (access + refresh tokens).
- Used CORS allowlisting for secure frontend-backend communication.
- Used cookie-parser, custom logging middleware, and centralized error handling.
- Deployed backend on Render with dotenv-based environment configuration.
- Live Demo: <https://auth-app-client-three.vercel.app/login> | GitHub: <https://github.com/Ibrahim-Ahidar/AuthApp-server> |
 - <https://github.com/Ibrahim-Ahidar/AuthApp-client>

ConnectFit (E-commerce Frontend Website)

- Built a fully responsive e-commerce website using HTML, CSS, and JavaScript

Live Demo: <https://ibrahim-ahidar.github.io/ConnectFit>

LANGUAGES

- Arabic: Native
- English: B2 (Upper-Intermediate)
- Spanish: A2
